## Letter of Commendation – Ms Roni Ajao

The purpose of this letter is to formally and publicly commend Ms Roni Ajao for the excellent service she provided to leading Nigeria's preparation to the United Nations Framework Convention on Climate Change (UNFCCC) in Copenhagen in December 2009.

This also includes the well presented strategy report – *Nigeria and Climate Change: Road to Copenhagen* document and her participation as a member of the Nigerian delegation in Copenhagen.

What particularly impressed me about the service provided by Ms Ajao was her ability to co-ordinate a large number of stakeholders from the different sectors of the Nigerian community which had a positive impact on the outcome of Nigeria's approach to addressing the challenges of climate change prior to, during and after Copenhagen.

In closing, I truly believe that Ms Ajao and her team need to be congratulated.

A handwritten signature in red ink, appearing to read 'John Odey', written over a red circular stamp.

**John Odey**  
**Honourable Minister**
